ONE

**Working from
home is AMAZING!**

There is no commute, you control the temperature, and you never have to hear a colleague chew their food...ever!

On the Flip Side

**Working from home
can be LONELY.**

On the flip side

**Working from home
can be LONELY.**

You may go for days
on end without seeing
another person.

On the flip side

**Working from home
can be LONELY.**

You may go days on end without seeing another person.

Tom from HR, whom you don't even like, is looking pretty good when you're going on day 3 of no human contact.

TWO

You never get dressed.

Trust me when I tell you, your wardrobe is going to suffer. All you will want to wear are sweatpants, t-shirts, and more sweatpants.

3 You can work from anywhere...

3 You can work from anywhere...

Oh, sweet freedom!

Sure you can work from anywhere. Feel free to get creative, but not *too* creative.

On the Flip Side...

You **NEED** an office!

On the flip side

You **NEED** an office!

With a
desk.

On the flip side

You **NEED** an office!

With a
desk.

How productive can you
really be squinting to see
your computer screen,
laying out by the pool?

FOUR

**You have a flexible
schedule.**

Need an extra half an hour to go grocery shopping and to UPS on your lunch break? That's okay, you have time for that. But remember: Don't make it a habit!

On the Flip Side

You need to have a set
work schedule.

Otherwise, you will never work, your boss
be very unhappy with you, and bad things
will happen.

THANK YOU!
